

eggshell/matte wallpaint application notes

Lullaby Paints
EGGSHELL/MATTE

Description

- Lullaby Paints Eggshell gives a washable medium-sheen finish, Matte gives a low-sheen finish.

Storage

- Protect from frost/freezing

Where to Use

- Interior walls and ceilings
- Eggshell is ideal particularly in kitchens, bathrooms, and other areas where steam and condensation are a problem

Preparation

- Surfaces should be clean, dry, sound and free from grease. If unsure, clean first with sugar soap and rinse well
- Remove all soft, dusty and loose material and abrade lightly to a feathered edge to provide a key
- On bare plaster/plasterboard, prime first with ECOS Plaster Sealer*
- Fillers - seal with ECOS Filler Sealer*

Application

- DO NOT THIN
- Stir gently and thoroughly before use
- Apply where possible using narrow (6 to 7 inch) foam or fine pile "gloss" roller. Do not layoff. Do not go back over painted areas. Do not spread
- May be sprayed using an airless spray system
- Best results are normally achieved with two coats
- Allow six hours between coats
- Avoid applying below 41°F (5°C) and above 68°F (20°C)
- Clean equipment with water, as soon as you have finished painting
- Normally touch dry in 1 to 2 hours

Coverage

- Varies with surface porosity, but on hard non-porous surfaces estimate:
140 sq. ft. per quart (single coat)
560 sq. ft. per gallon (single coat)

Health and Safety

- Avoid contact with skin and eyes. Wash off splashes with water. Do not ingest
- WARNING: Older buildings may contain lead-based paint, which requires professional remediation if it is disturbed. If in doubt, consult with a professional from a Lead-Safe Certified Firm

More Tips:

Getting the Most Out of Your Pouch

Twist and squeeze pouch for full use. In addition, the pouch can be cut open using scissors. Squeeze out air before resealing

Discarding Paint Pouches

Let dry in an air cooled place and discard in accordance with local ordinance

Help us to provide a healthy, safe environment for moms and babies
